Amantica Lodge

Located on the shores of Lake Titicaca, the lodge sits castled on the island of Amantani. This mystical place offers to savvy travelers a unique and authentic experience surrounded by the breathtaking scenery of Titicaca Lake and the preserved nature of the island.

A wide-angle night photograph of a coastal landscape. The sky is filled with the Milky Way galaxy, appearing as a bright, hazy band of light and stars stretching from the upper left towards the center. The foreground shows a dark, rocky shoreline with a small, rustic building on the left, its interior lights glowing. A lone figure stands on a rocky outcrop in the middle ground, looking up at the stars. The water is dark and calm, reflecting the light from the sky.

Experience

We offer a dream out of time in a unique and spectacular environment. Share with the natives, enjoy our local and organic cuisine, and feel the energy and spirit of Amantani within a philosophy of social responsibility.

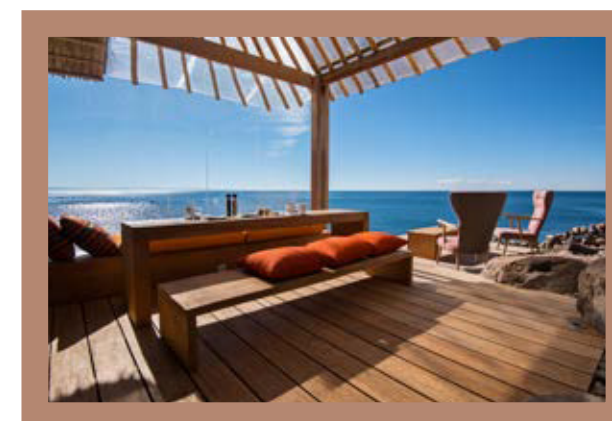

Our Lodge

Is built following traditional technique, using local and sustainable resources. Enjoy the intimacy of being the only guest, experience the service of a private Chef and be welcome by Oswaldo the host, native from the area, who both will greet you in every moment.

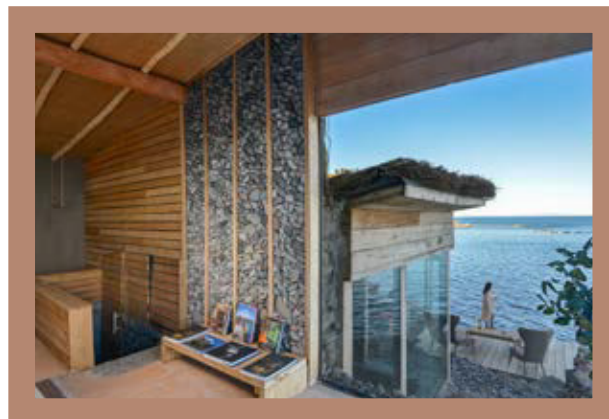

Main Suite

Its huge windows offers an amazing landscape to our guest's eyes. Its iconic large gas chimney provides comfortable heat and the high quality bed ensures dreamed nights. The suite has a direct access to the terraces overlooking to the Andes and Titicaca Lake, one of the most breathtaking scenery in the world.

Family Suite

Our second room offers a unique view of Taquile island. It has two queen size beds of the highest quality to enjoy a deep rest. Find yourself suspended in time during the night, thanks to the rhythm of the waves and the ancient peace of this magical place.

Bathroom

A modern bathroom where the main character is our huge bathtub, carved into the rock, merging with the waters of the majestic Titicaca.

The bathroom is common to both rooms but each one has an individual private access to it.

Cuisine

Enjoy an incredible culinary experience served by the private Chef facing the intense blues of the lake. Discover our novo-Andean menu based on the philosophy of slow food, locally sourced and mainly organic.

Titicaca Lake

3,820 meters above sea level, 8,372 square kilometers, 283 meters as max depth (Avg. depth: 107m), 41 islands, 25 rivers, 530 species of aquatic animals, 109 species of endemic birds, 12 rock paintings with more than 8,000 years of age. The wonders of the lake are endless and our staff will be at your disposal to discover them.

Activities

We offer unique and authentic excursions for the pleasure of our guests, who can choose from ancestral, sporting and/or cultural activities. Oswaldo, our native host will handle everything to fulfill all your wishes
